Teachers' Pay Plan Ruled Out

The Grossmont Union High School District Board of Trustees Monday approved administrative and teacher association recommendations to end the complicated extended-day compensation plan for the end of this school year. The plan had been adopted last year on a trial basis.

The plan provided for extra compensation for all extra duties other than teaching five periods on a comprehensive schedule adjusted to duty involved. Payment for the year was established at 36 percent of schedule because of limited funds.

The new plan, which eliminates noon duty supervision and reduces released time periods and extra pay to the minimum, was submitted by the administration and approved for the 1959-60 school year by unanimous vote of the board. After a lengthy discussion, only counseling, A.S.B. activities, noon duty assignments and an extra period of physical education which may be assigned to coaches are to be compensated as overloads under the new plan.

Assignments for supervision activities will be lightened for those with heavy extra curricular loads. Five periods of teaching, plus one preparation period regardless of the subject area, will be regarded as a full instructional load. Variation of the average number assigned to the classes in various departments will reduce some of the inequalities which will continue to exist.

NEWS WRITER HURT IN CAR ACCIDENT

Elizabeth Seymour Robinson, 74, of 10096 Casa de Oro Blvd., Spring Valley, a writer for La Mesa Scout, a newspaper, was injured slightly in an auto accident Tuesday night at Waring Road and Alvarado Freeway.

A spokesman for Grossmont Hospital said Mrs. Robinson's condition was "good" and that probably she would be released before the week's end.

Library Conducts Tot's Storytime On Saturdays

Mrs. Ruth R. Pedler, head of the Lemon Grove Library, is extending an invitation to all children, between the ages of five and ten, to a storytime at 10:30 on Saturday mornings at the library. The program begins on Valentine's Day, February 14.

Mrs. Jean Cooley, recently added to the staff, will be in charge. She has been connected with children's libraries in New York City and Seattle.

On opening day, November 6, the library contained approximately 20,000 volumes. A total of 1,765 books and magazines passed over the library's counters on that day, a new city, county record. Today, the number of volumes is just a few under 21,000, which means that better than 330 books per week have been added to the stock. From November 6 to January 31, circulation figures read 43,081.

The library recently received a new decorating book, "New and Complete Guide to Interior Decoration," donated by the Lemon Grove Woman's Club Juniors. The Lemon Grove Junior Chamber of Commerce is currently conducting a book campaign for the library with collection boxes for book donations at several points.

Mrs. Pedler and her staff are also issuing an invitation to all residents to visit the new library building at 7735 Pacific avenue.

Local People Requested It Assistant Manager Says

Tom Fletcher, assistant to the city manager of the City of San Diego, said Monday that an annexation survey is being made in Lemon Grove following the same boundaries, with minor exceptions, as those used in the unsuccessful campaign for incorporation last November.

Fletcher said "at least a dozen" individuals who reside in Lemon Grove had requested the study. He said he was assured that a "formal request for annexation would come from an organized group" in the near future. He would not identify the individuals nor the group.

He said the annexation survey amounted to little more than up-dating of a survey made two years ago at the request of the Lemon Grove Men's Club, but he said it would be complete in every detail.

The variances from the boundaries used for incorporation are a 132-acre tract already up for annexation south of Lemon Grove and east of Imperial, and an area known as Sonka Urban Heights which was excluded by request from the incorporation boundaries but are within the annexation boundaries, Fletcher said.

City Manager George E. Bean said the same day that he didn't know of such a survey being conducted in the Lemon Grove area.

The process for annexation is the same as for incorporation with one major exception. On a petition for annexation signatures representing 25 percent of the registered voters only are needed.

Fletcher said the city would take no action on setting an annexation election until a formal request had been made.

GOOD WILLER—Dr. Frank Gigliotti, of Lemon Grove, nationally-known cleric and humanitarian, was elected a new member of the Goodwill Industries of San Diego County recently. A long-time worker in the interests of the handicapped, and a past chairman of the Governor's Committee to Help Employ the Handicapped, Dr. Gigliotti is shown above at the right, being inducted into office by Richard A. Nelson, national and local president of Goodwill Industries, Max Goodwin, REVIEW editor, is a hold-over director of the organization, which employs nearly 200 handicapped in this area, with a store in Lemon Grove.

Area Births Down At Two Hospitals

Births dropped again recently at local hospitals with only four births among local families, from January 29 to February 3, reported by Grossmont Hospital and Paradise Valley Hospital. A fifth local baby was born at Villa View Hospital.

A boy was born January 29 at Grossmont to Mr. and Mrs. Henry Kauffman, 3457 Harris street, Lemon Grove. He weighed in at five pounds, 14 ounces.

Other Grossmont births were: a seven pound, four ounce, girl born January 30 to Mr. and Mrs.

Chamber Members Total 162, Says New Secretary

The Lemon Grove Chamber of Commerce board of directors heard Jesse E. Lee, its new secretary-manager, report Thursday that all is in readiness for the "Open House" celebration of its new office Friday, February 20. He also reported that six new members had signed up since the last meeting to swell the membership to 162.

Additionally, he said, the group is solvent, having a bank balance of \$1,169. A deficit resulting from last year's incorporation activity is being paid by George Scott, a principal in the College-Grove Shopping Center and chamber board member.

Chamber President Bill Parker said the first issue of the group's new monthly newsletter would be professionally printed and issued at the "Open House" February 20. The new office is at 7350 Broadway.

A clarification of policy regarding political activity was urged by President Parker. He offered a regulation that would deny board or staff members the privilege of referring to the chamber either for identification or sponsorship if the material is critical of any other candidate. "The chamber cannot endorse any candidate," he pointed out.

The matter was put in the hands of a committee. An indication was that sympathetic consideration would be given his request.

Five eighth-grade civic class members of the St. John of the Cross school were made honorary members of the chamber when they attended the noon-day meeting.

Baby Dies Despite Firemen's Efforts

A two-month-old baby boy died Thursday of last week of congestion despite efforts of Lemon Grove firemen to revive him with a resuscitator. He was Deron Wayne Padfield, son of Mr. and Mrs. David Padfield of 1938 Primera street.

Firemen were summoned at 9:30 a.m. when the child had difficulty breathing. He died shortly afterward.

Funeral services for the youngster were held Saturday at the First Baptist Church of National City. Bert Roberts Mortuary was in charge. Burial was made at Mt. Hope Cemetery.

Lemon Grove firemen were summoned again on Thursday to Michael's Steak House, 7828 Broadway, when grease ignited in the restaurant's kitchen. No damage was reported.

Firemen also extinguished a small grass fire Saturday at Federal boulevard and College avenue.

Officers Nominated For Hospital Women's Auxiliary

Nominations of new officers to serve Grossmont Hospital Women's Auxiliary from June 1, 1959, through May 31, 1960, were given their first publication in the current issue, just out, of the organization's monthly Newsletter. The slate is made up of: Mrs. Von Nordman Marshall, president; Mrs. Vinard Francisco, area coordinator vice president; Mrs. Lawrence O. Jensen, director of volunteers vice president; Mrs. Lysle Kimsey, membership vice president; Mrs. Mearl L. Baker, public relations vice-president; Mrs. John Terhorst, ways and means vice president; Mrs. W. H. Dickel, recording secretary; Mrs. Elmer J. Drew, treasurer; Mrs. William E. Long, corresponding secretary; Mrs. C. N. Leach, financial secretary.

A second publication of the slate will be made in the March Newsletter, as provided in the by-laws, before it is presented to the membership for a vote at the March 13 general meeting, details of which will be announced.

Mrs. Marshall's nomination is for a second term; Mrs. Drew's for a third. The remaining nominees are first-timers.

The Dimmer View

by MAX GOODWIN

A perfect example of the casual attitude of Lemon Grove folk could be seen in one of Lemon Grove's more popular cafes last week.

The chef was chatting with the boss' wife about Las Vegas during a break in a busy dinner period. "I'd like to go there again," the chef said.

The boss' wife, with her mind on the cash register, murmured noncommittally, "Why don't you?"

She got her answer a few minutes later when she went to the kitchen to check on a dinner order. The chef was not there. A note said "Gone to Vegas. Will be back Saturday."

That's why a boss' wife was cooking meals in a Lemon Grove cafe three days last week.

Boy Scout officials, this month, returned to a former practice of raising funds by soliciting sustaining memberships from among the public generally, because the Community Chest is not able to meet the Scout's (and others) 1959 money request. The Community Chest obtains its funds from the United Fund of San Diego County organization.

United Funds, designed to replace other fund-raising activities in the county, fell woefully short of its goal in spite of outstanding effort by its leaders. To overcome the shortage, the San Diego Council of Boy Scouts, who previously agreed to restrict its fund raising this year, felt the need for reverting to its own fund-raising and some other groups are following suit.

To this end the San Diego Council of Boy Scouts put on a fund raising project with the kick-off being a breakfast last week in La Mesa. Executives of Lemon Grove schools were asked to attend. Three went.

A few days earlier school youngsters carried home requests for funds for the March of Dimes. This followed closely a door-to-door campaign by neighborhood ladies in a tedious thing called "Mothers' March" in which they duplicated much of the work the youngsters were doing.

This is not to question the need for funds!

We hope we do not discourage anyone from being generous!

We do have a small point, however, and it produces a question begged by the fact our schools have become involved in fund-raising projects.

School people are fair game. On the simple premise that children is their business goes the argument that "you can't turn this down if you are sincerely interested in youngsters." This is a compelling argument and denies school people the right to say "no" for fear of criticism.

I asked Byron Netzley, Superintendent of Lemon Grove Elementary schools if fund-raising by school personnel was costing the school-tax payer anything. He said he didn't think so and pointed out that most requests for assistance were turned away with the admonition that school personnel could be contacted at their homes and as private citizens. A notable exception is the March of Dimes in which the school trustees approve children carrying home pledge envelopes. He admitted that all the major campaigns and most of the minor ones exerted various degrees of influence on school authorities to supply funds and workers for the various causes. He agreed that some executives felt trapped by their position in the school community and gave more help and money than they might give otherwise.

I talked to two teachers at the Monterey Heights school on the same subject and they felt they were contributing to the limit on their own, but would

Apprenticeship Program Urged At Area Schools

Case Kellogg, apprenticeship standards consultant, recently told the Grossmont Union High School District Work Experience Program Advisory Committee that an apprenticeship program in the district would be desirable for students who want to enter a skilled trade.

Kellogg said he felt a list of students who have done extremely well in industrial arts in high school should be considered by the joint apprenticeship committee to enter the apprenticeship program.

Also at the meeting, Glen Mayfield, director of southern district of Industrial Welfare, discussed regulations governing the employment of high school students.

Ward Howard, chairman of the trades and industry subcommittee, introduced Vernon Hill of El Cajon Valley High School, John Roang of Helix, Lewis Orr of Grossmont, and Edward Dunn of Mt. Miguel High School, industrial arts teachers who described the programs in their schools. Ward urged more reading, writing, math, elementary physics and training in filling out application blanks and simple reports, for students who want to apply for technical jobs.

College Grove Center Gets Universal Boot

Universal Boot Shops has leased a 3,000 square foot store in College Grove Center, according to an announcement by the Philip Lyon Company, Los Angeles, leasing agent for the center.

Known to San Diego footwear purchasers for 47 years, Universal Boot Shops currently operates 13 stores in San Diego County.

"College Grove Center was selected as a site for a new store because it is centrally located and easily accessible from a major freeway," Max Heimburg, partner in Universal Boot Shops said. "It is located in a progressive and thriving area, surrounded by a residential community which still has room for further development and expansion."

Presently under construction at Freeway 94 and College Avenue, College Grove Center's completion date is tentatively set for October, 1959. The center, designed by John Graham and Company of Seattle and New York, will consist of 80 stores on a 70 acre site, with parking facilities for 6,000 cars.

Engineering Show To Open Feb. 26 In Balboa Park

The 1959 Engineering Exposition will be held February 26 through March 1 at the Electric Building, Balboa Park, according to R. F. Andersen, P.E., chairman of the event.

The exposition, now in its third year, will be a part of the San Diego celebration of National Engineers' Week. One hundred and forty exhibits are expected, reflecting the theme "Engineering is Everybody's Business."

Engineering displays will be entered from all of San Diego's major industrial firms and many from other parts of the Southland and the nation.

The San Diego celebration is one of the major community efforts of the country, reflecting the growing prominence of San Diego as a scientific, technical and engineering center.

The exposition itself is under the sponsorship of the San Diego Chapter of the California Society of Professional Engineers, according to Andersen. Over 20 scientific and technical societies share in providing the annual showcase of engineering capability.

The public is invited to view the exposition free of charge during its four day run.

NEW NEWS

A fringe benefit of being in the camera business is having a ready answer to the question, "What's new?"

For instance, ask us "What's new in movie cameras?" and we'll snap back, "the Brownie Scopesight." This is the new camera that lets you see that your movies are being correctly exposed while you're taking them. How does it work?

Very cleverly. The Scopesight has an exposure meter built into its enclosed viewfinder. And when the camera lens is set correctly for the existing light

conditions the exposure meter needle is in the center part of the finder. Now suppose the light conditions change while you're shooting a scene. The meter pointer will then move up or down warning you to change your lens setting. All you have to do is turn a dial on the side of the Scopesight. It positions the pointer... automatically resetting your lens. It's so easy you can do it without taking the camera from your eye.

The Scopesight Camera has a couple of other neat ideas packed into its casing. There's a built-in Type A Filter for using indoor color film outdoors. A Skylight Filter, to offset bluish haze often-times encountered outdoors. And a view finder eyepiece that adjusts to suit your own eyes. Plus a half dozen other intriguing features.

If you've been promising yourself a movie camera, have a look at the new Brownie Scopesight Movie Camera. Just \$10 down.

Children's Tooth Decay Ranks Second Only To Common Cold, Says Swenson

Dr. R. Swenson, Lemon Grove dentist, yesterday urged Lemon Grove-Spring Valley parents to give serious thought this week to the real purpose of Children's Dental Health Week, February 8-14.

Dr. Swenson, who is chairman for the observance in this area, pointed out that as a disease tooth decay has become so widespread in this country that it now ranks second only to the common cold.

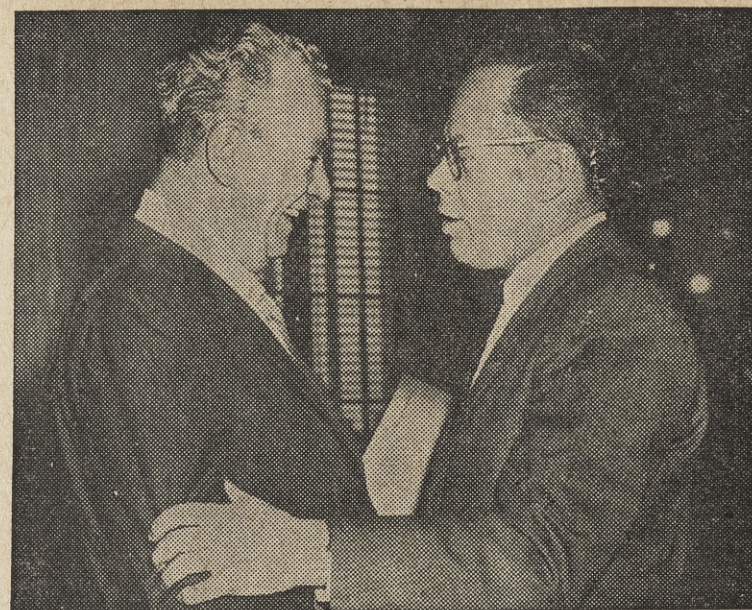

"Eight out of ten of our children now have some decay in their teeth," Dr. Swenson said. "It looks as though eight of ten of our unborn children will also have decayed teeth unless more parents recognize that tooth decay is a mouth crippling disease and try to do something about it."

Much can be done at home to prevent tooth decay, Dr. Swenson said. He stressed the importance of children learning to brush their teeth at a very early age. Teeth should be brushed regularly after every meal and snack, he added.

Dr. Swenson said diet can also go a long way in preventing tooth decay. A diet should be well balanced and low on sweets, Dr. Swenson said. He explained that sweets definitely contribute to tooth decay.

Winless Matadors Drop Two More

The Mt. Miguel Matadors lost two more close basketball games last week in the Mt. Miguel Gym, losing to the league-leading Chula Vista Spartans, Tuesday, 51-50 and Friday to their arch-rivals, the Helix Highlanders, 47-40.

The Chula Vista game was a tight game until the gun sounded. The score at halftime read Spartans 23, Matadors 27. At the end of the third quarter, the Miguel five was ahead 41-37, but could not keep up their pace at the free-throw line, hitting only one out of five free-throws in the fourth quarter.

The score was tied 50-50 with one second remaining on the clock as Fred Olmsted stepped up to the free-throw line to hit the first shot and miss the second, but there was not enough time on the clock for the Matadors to score a basket. Bill Fol-

ey, with 14 points and Gary Meggin, with 12, placed the league-leading Spartans. Wayne Stephens and Jerry Lipscomb each hit 13 points and Jeff Cox had 12 for the losing Miguel five.

Mt Miguel dropped its second close game to the Helix Highlanders, 47-40, before a fullhouse crowd.

Mt. Miguel, at one point, had a five point lead but could not hold it as the sharpshooting Highlanders came back. At halftime, Helix led by two points, and going into the fourth quarter they increased their lead to four points. Pacing the Highlanders were Larry Cook, who poured in 17 points, and Wally Hartwell who hit for 12.

Leading the Miguel five were Jeff Cox with 15 points and Wayne Stephens with 8.

INCOME TAX FAX

This series, dealing with income tax problems, was compiled by the Society of California Accountants and will appear in this newspaper until April 15, deadline for filing income tax returns. It is presented as a public service to readers by the Society of California Accountants and this newspaper.

Do you have traveling expenses in connection with your employment?

If so, you can deduct them from your income in arriving at your adjusted gross income. This means that you can also use the standard deduction as you no longer have to itemize your deductions on page two in order to take these traveling expenses.

Out-of-Town Travel Expenses—The law provides special deductions for the expenses of travel while away from home in connection with your employer's business. Traveling "away from home" means going away from the city or town where you normally work and remaining away at least overnight. "Travel expenses" means the cost of transportation fares, meals, and lodging, and includes porters' tips, hire of public stenographers, baggage charges, and similar expenses necessary to travel. Travel expenses do not include any entertainment expenses or any personal expenses such as laundry.

Other Transportation Expenses—Even though you do not travel away from home you may deduct transportation expenses paid in connection with the performance of services for your employer. Transportation expenses include payments for actual travel or, if you use your own car, the business portion of the cost of operation, including fuel, repairs, and depreciation. Expenses of Outside Salesmen—The law allows "outside salesmen" to deduct all their ordinary and necessary business expenses. This applies only to full-time salesmen who are engaged in soliciting business for their employer's place of business. The term does not include one whose principal activities consist of service and delivery such as milk-driver salesman.

Any reimbursement of these expenses must be included in your income. Attach a statement to your return explaining in detail the expenses you deduct. You may obtain form 2106 from the nearest Internal Revenue Service office to explain these expenses. All expenses deductible under this section must be allowable expenses. Transportation expenses do not include the expense of commuting to and from work. Commuting is a personal living expense and is not deductible.

10,000 Heart Sunday Volunteers Will Solicit Funds This Week

Mrs. Verda A. Lyng, 8749 Carolla circle, has been named area chairman for Sping Valley for the Heart Sunday drive this week of the San Diego County Heart Association fight against heart disease. John O. Shive, 8946 Moisan way, is general chairman.

In Lemon Grove, area chairmen are Mrs. E. L. Phares, 3409 Washington, and Victor Whitworth, 1709 Englewood drive. Mrs. Frank Wherry is serving as overall Heart Sunday chairman.

Heart Sunday workers in Spring Valley last year, collected \$523.45 for the San Diego County Heart Association's fight against heart disease. Heart disease, throughout the nation, caused more deaths than any other disease last year.

A total of \$38,382.06 was collected throughout San Diego County last year on Heart Sunday.

The county goal this year is \$145,000 in the month-long campaign.

Starting at noon on Sunday, 10,000 Heart Sunday volunteers throughout San Diego County, led by 499 district captains and 68 area chairmen, will make their visits between noon and 4 p.m. Each will call on about 20 neighboring homes.

"When the Heart Sunday volunteer arrives, wearing an official ('Heart Sunday Volunteer') armband and badge, he or she will present a printed manila envelope," Shive said. "The householder may insert in this envelope a cash or check contribution of any amount, seal the envelope and return it to the collector."

If the volunteer finds no one home, he or she will leave a special envelope pre-addressed to the San Diego County Heart Association in which a contribution may be readily mailed.

Heart Association officials pointed out that there will be more Heart Sunday volunteers working in this community on February 15 than any of the two previous Heart Sunday campaigns. A large percentage of the volunteers have cardiac victims in their own family.

"Heart Fund dollars are helping the San Diego County Heart Association to fight heart disease on a local level, as well as state and nationwide," the Heart Sunday chairman said.

"This fiscal year alone (July 1, 1958-June 30, 1959), the San Diego County Heart Association has allocated \$32,000 in Heart Fund dollars to researchers in San Diego, La Jolla, and California.

An additional \$18,000 in Heart Fund dollars from this community, which went to the American Heart Association, also went directly into Heart research this fiscal year."

Wall Street Journal Uses Feature On Area Building Plan

Two area builders became part of a story in a recent issue of Wall Street Journal (January 20), although indirectly, when that publication did a page one feature on Harmony Management Service. The area firms are Sea Grove Builders on El Cajon Boulevard, and Cypress Builders on Churchward Street.

The article explains how the service develops its own clients by putting individuals into the business of building low-cost homes.

Harmony locates those it believes will make successful builders then participates in the firm's birth by helping draw up papers of incorporation. The owners then take over the new firm which immediately starts using Harmony's varied services.

The management service helps recruit and train salesmen for the builders and even concocts contests to spur them on. Harmony concentrates on a few basic designs for houses and centralizes buying to whittle costs. Even advertising is funneled through a single channel to shave expenses.

To keep financial risks at a minimum Harmony insists its builders undertake construction only for purchasers owning their own lots.

Special Services Slated At Church

Children of all faiths will gather Thursday of this week at the Lemon Grove Methodist Church to observe World Day of Prayer, celebrated in 140 countries throughout the world. Local churches which will be represented at the 9:30 a.m. special services are First Congregational, First Baptist, Lemon Grove Lutheran, Wesleyan Methodist, and Spring Valley Baptist.

Conducting the services will be Clive Linsenbar, Linda Unroe, Kathy Reid, Sandra Beardsley, Howie Wollitz and Lolly Dail. Sharon Lane will be organist and Mrs. H. L. Hensley will lead the interdenominational children's choir. A special talk will be given by Miss Dorothy Sandford, missionary who recently returned from Peru.

Neil Morgan, well-known columnist and author, will appear on April 1. Any writers interested are invited to visit the class to hear these special programs, without charge.

WHAT'S DOING

This flying phone crew is using a helicopter to find suitable locations for new radio relay towers to carry your calls. Rather than build costly access roads, they air-lifted themselves and their heavy radio test gear into rugged, roadless country. In five months they logged nearly ten thousand air miles and wrapped up a job which could have taken a year. And flying crews aren't the only phone people who work with time-saving equipment. On every phone job we look for the most economical way to do it.

ATTEND CHURCH THIS SUNDAY

The coming of Jesus into the world was the world's greatest event. Long was He sought for by the multitudes and when He came He was accepted by some and rejected by others. Those who came singing of "Peace on Earth, Good Will Toward Men" and others bringing their gifts of Gold, Frankincense and Myrrh have been long remembered while others who rejected Him have remained silent and have become anonymous.

Upholstery Firm Opens

The All-American Upholstery, formerly located in Encanto, has opened its factory and showrooms at 7345 Broadway in Lemon Grove.

Harold Franklin, a partner, said the firm had outgrown its location in Encanto which caused it to seek bigger facilities.

Franklin said the firm had been in operation in San Diego since 1955 but had been primarily a re-upholstering concern. At the Broadway address all types of new and used furniture has been added.

The firm is now open for business but is planning for a formal opening later.

Associated with Franklin are his son, Ronald, who is the manager, and Ward Fleming.

CHURCH DINNER TO FEATURE PLAYERS

The annual Brotherhood dinner will be held in Fellowship Hall Thursday of this week at the Vista La Mesa Christian Church.

The University Christian Church Players will present the drama "Ba Thane" as part of the program.

Art Association Slates Speaker

The regular meeting of the Foothills Art Association will be held February 18 in La Mesa Elementary School, 8100 Orange, room 1, at 7:30 p.m. The program will begin at 8 p.m. with Herbert Turner of Del Mar as guest speaker. He will demonstrate still life painting as he lectures.

Turner acquired his art training in the New York City area, beginning with Naum Los. For several years he studied with Robert Brackman, N.A., at the American Art School where he was a class supervisor for three years. Ivan Olinsky, N.A., was his instructor in drawing, and he also studied with Ernest Roth, N.A., in the National Academy of Design.

Turner has been awarded several prizes in juried shows in this area and excels in figure, portrait and still life painting. He also does some instructing, in addition to his studio work at Del Mar.

The Dimmer VIEW

(Continued)

be willing to give more time if the school district would provide that time.

I guess it boils down to whose time is being used. If workers are called upon to make a generous donation, then, are asked to give up time they need for pursuit of livelihood, the enthusiasm for the project suffers.

Added to this, the March of Dimes, as an example, changed its character since the knight-and-white-charger days when we were going all-out to stem the ravages of polio. Apparently, salaried leaders didn't want the powerful collection organization to fold up, so they changed its direction and kept right on collecting. Many volunteer workers though, are not so enthusiastic as when polio protection was yet to come.

Well, there you have it. It looks like there'll be a fund raising drive every week soon. Enthusiasm will continue to flag and administrative and collection costs will skyrocket. They'll put on the heat to get school personnel to do the job, and I, for one, think school authorities should resist the pressure.

There is but one way out of this predicament. All of us should insist that all fund-raising activities should be conducted under the canopy of the United Fund. Then every one of us should work and give to the one-shot project, until it feels good... like a successful campaign should.

There's a resolution, (Assembly resolution AJR-7) already introduced in the California Legislature that could change our way of economic life by a reduction in taxes.

The resolution asks for repealing the federal income tax (16th) amendment. It also asks for the liquidation of more than 700 federal corporations in competition with private enterprise.

Proponents for the measure say the proposal will reduce federal taxes more than a third, eliminate deficit spending, and substantially reduce the federal debt. They say also that the increased money made available to individuals, investments and business activity will soar, providing the nation with greater prosperity. Additional argument is that 11 billions of dollars spent on federal payroll to service these huge corporate structures will be expended in private enterprise where labor enjoys better wages.

Legislation is being introduced across the nation from Florida to California, and action will require Congress to either call a convention for the purpose or ask for ratification if two-thirds of the states initiate similar resolutions. Then if three-fourths of the states ratify the proposition, it becomes a part of the United States Constitution.

LETTERS TO THE EDITOR

Dear Editor:

Many postmasters have reported to the Regional Office that a major contribution to the success of the 1958 Christmas Mail operation was to be found in the cooperation of local editors in publishing "Mail Early" articles. Many of the postmasters have requested letters of commendation for their local editors.

We believe that the letters are deserved. However, this office would have to write so many that it would involve considerable stenographic expense. We trust, under the circumstances you will accept this letter in lieu of an individually typed letter of personal commendation. It voices our thanks to you and members of your staff for helping to make it possible for the Postal Service to function more efficiently and effectively during the 1958 holiday mail period.

Certainly, we thank the public in general for the cooperation which made the 1958 Christmas season the smoothest and best in the memory of veteran postal employees. To an exceptional degree, the public helped by mailing early, by separating local and out-of-town mail and by using zone numbers in addresses.

This cooperation was reflected favorably in operating costs. In this region, the number of Christmas temporary employee manhours in 1958 was 210,171 less than in 1957. The gross payroll of all types of temporary Christmas help amounted to \$4,074,000 in 1958, which was only \$20,000 more than 1957 despite a 10 percent increase in hourly wage rates. The decrease of 210,171 manhours represented a savings of approximately \$385,000, without making any allowance for increases in manhours that would normally be required as a result of increases in population and mail volume.

Thank you for helping to make such a record possible.

Sincerely,
Verne Scoggins,
Regional Operations
Director, U.S. Post
Office Department,
San Francisco, Calif.

Dear Editor:

We have all heard the one about "results," but I believe that we have them all topped with this one, and it is true.

We ran an opening ad exclusively in the Lemon Grove Review and Spring Valley Bulletin, and the response was very gratifying. Not only did we have the pleasure of meeting hundreds of new people, but we found that the coverage of these "home-town" newspapers is nearly out of this world.

And here is where we feel the new record was set. It was my pleasure to "serve" a gentleman and his wife from quite a distant place. They are the owner-operators of a trading post several hundred miles up on the Alcan highway, and the shoes purchased from me was their first such purchase in the "outside" as they

called it in over seven years.

Now, if this is not results, what is? Congratulations for a job of far reaching advertising well done.

Ray Purtee,
Purtee's Shoes
7741 Pacific Ave.,
Lemon Grove, Calif.

Dear Editor:

We, the players of the Lemon Grove Merchants baseball team wish to take this opportunity to thank the many people who made it possible for us to represent the Lemon Grove area with its first representation in the San Diego Baseball Association.

Without the generous support of our sponsors: Spears Ford, Lemon Grove Paint and Body, Lemon Grove Sporting Goods, Southland Savings and Loan Assn., The Big Wheel, and CP Appliances, it would have been impossible to participate in the league.

Also we wish to thank Mr. and Mrs. Arthur Berry for their very generous assistance to the team.

We hope the publicity obtained by us and further recognition of Lemon Grove through us, was of assistance to the merchants of Lemon Grove in exploiting the merits of the community.

Sincerely,
The members of the
Lemon Grove
Merchants baseball
team and Ed Erault,
manager.

**High School Building Program
Discussed By Advisory Committee**

Grossmont Union High School
District Citizens' Advisory Com-
mittee members discussed the
building program for the rapidly
growing Grossmont district, look-
ing ahead to 1963 and further, at
a recent meeting.

Since present capacity of El
Cajon Valley High School is
1,989 students and enrollment is
estimated at 2,600 for September
and 3,000 in September 1960, dou-
ble sessions would be necessary
there unless a new school could
be provided at the 4th and Mad-
ison streets site by September,
1960. A similar situation exists
at the 1,930-student Mt. Miguel
High plant where enrollments
will be 2,100 next year and 2,500
the following year. A school on
Sweetwater Springs boulevard
will be constructed to take care
of this increase.

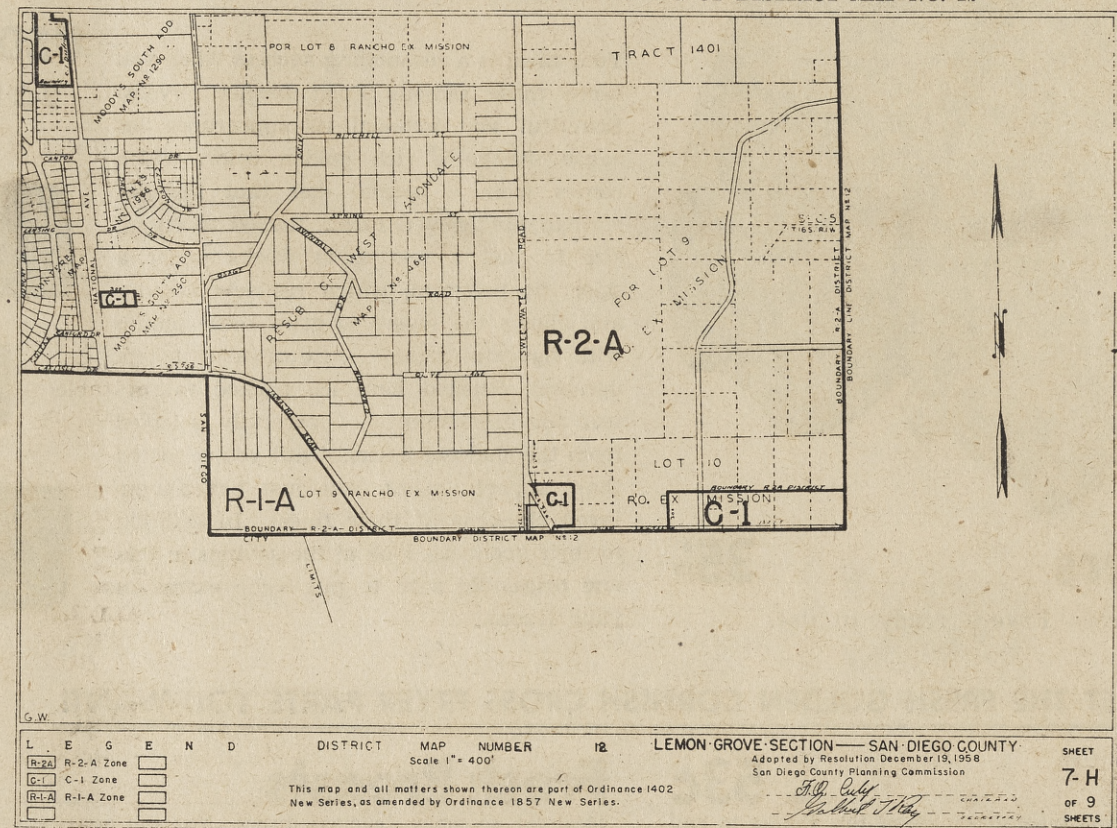

A \$5 million bond election set
for May 19 and a state loan of
\$2,750,000 would go toward fi-
nancing such construction. A
school is projected for the Santee
area, and Lewis F. Smith, dis-
trict superintendent, reported to

CAC that four additional sites
are under consideration. No ac-
tion on the building program
was taken by the committee. A
further study will be made.

Members also were informed
that legislation is pending which
would, if passed, change the col-
lege picture in the district. The
district has been unable to pro-
ceed with plans for a junior col-
lege because of lack of funds.
The proposed legislation would
give enough financial assistance
to help. Legislation to raise the
number of square-feet per stu-
dent in schools under the state
building program is also pro-
posed.

Ben Cooper is out of the Army. Was well received by a Hollywood party to launch his career again. . . Margaret O'Brien just turned 21-years-old. She is engaged to an aircraftsman. . . Bob Cummings' "nephew" (Dwayne Hickman) is chasing Dorothy Provine. . . The most ardent supporters of vocalist Jimmie Rodgers are Molly Bee, Kenny Miller (recently visiting this writer in his Lemon Grove home), Ronnie Burns and Jimmy Boyd. . . another ex-Mousketeer is in the Marines, but unhappily stationed at San Diego's Naval Hospital, thanks to a brain injury. He's Steve Stevens.

Watch for a rip-roaring bathtub scene with Asa Maynor in "The Young and the Damned." She's Eddie Byrnes' steady. . . Sportscar enthusiast Lance Revell and 20th Fox actress Jill St. John look like they're at the end of their supposed romance. The flame is dying out. . . San Diego's Jo Morrow has moved out of the Hollywood Studio Club where she's been residing for the past 11 months. Now has her own apartment. . . Josh Logan will direct Warner's "Parrish." Stars will be Clark Gable, Gene Tierney and Natalie Wood.

Was pleased that columnist-photog Earl Leaf included me in his fine column in the new March issue of "Teen" magazine. (Page 47 for the details). . . Predicted stardom: Disney's Carol Lynley. And only sixteen years young. A real doll with talent. . . Until next we meet, Vaya con Dios.

\$45 Million To Be Spent For Water Work In 1959

The Metropolitan Water District of Southern California, during 1959, will invest \$45,000,000 in new construction work to bring additional Colorado River water to the coastal plain of Southern California, it has been announced by Robert B. Diemer, general manager and chief engineer of the district.

"By the end of 1958 the Metropolitan Water District had invested \$143,000,000 in an expansion program started in 1952," Diemer said. Of that amount "\$47,000,000 was invested in 1958. The entire program, which is scheduled for completion in 1960, will call for a total investment of approximately \$200,000,000."

Diemer said the expansion program is designed to bring the district's Colorado River aqueduct and its distribution system to the full ultimate capacity of 1,212,000 acre-feet annually or more than one billion gallons of water a day.

EXPANSION PREDICTED

He pointed out that when the Colorado River aqueduct was completed in its initial development in 1941, provisions had been made for the future expansion of the aqueduct when the need for additional water warranted such expansion.

"When it became evident that Southern California would soon need the full capacity of the aqueduct, the district embarked on the current program to supply the needed water," Diemer declared.

BIDS DUE NEXT MONTH

He also pointed out that the construction of the northerly 34-mile portion of the second San Diego aqueduct, which takes off from the main aqueduct near San Jacinto, was started in 1958 and will be completed in 1960. This portion of the San Diego line is being constructed by the district.

Time after time on Westinghouse Studio One on the CBS Network, Westinghouse proved the superiority of the Revolving Agitator Laundromat over top model center-post agitator automatics.
